

## Product Selection

### 4040 End Port, Side Port

**Pressure** : 300、450、600、800、1000、1200PSI ;

**Length** : 1-5core (element) ; The appearance of colors White for the standard configuration can be based on customer can be customized.

**Technical Requirements:** Membrane housing manufacturing methods in accordance with standard JC692-1998 ;

The membrane housing designed to pressure 300、450、600、800、1000、1200PSI ;

**Allowed operating temperature range** : -7 to 50 C

The pressure infiltration test experiment of membrane housing is using the experimental pressure of 1.5 times the standard pressure.

Specifications	End Entry	Side Entry
Shell Material	FRP	
Feed / Reject Port		
Size	0.5" / 0.75"	0.5" / 0.75"/1"
Connection	Female NPT / BSP	Groove
Material	ABS	S304 ( SS 316 )
Permeate Port		
Size	0.5"	
Connection	Female NPT / BSP	
Material	ABS Standard ( Stainless Steel Optional )	
Head Assembly	Included	
Adaptor	N/A	Included
Straps and Saddles	Included	
Packaging	PVC plastic wrapping with carton outer
