

**Product Selection**

8040 Side Port including cellular panels End Port

**Pressure** : 300、 450、 600、 800、 1000、 1200PSI

**Length** : 1-7core (element)

**The appearance of colors:** White for the standard configuration can be based on customer can be customized.

**Technical Requirements:** Membrane housing manufacturing methods in accordance with standard JC692-1998 ;

The membrane housing designed to pressure: 300、 450、 600、 800、 1000、 1200PSI ;

**Allowed operating temperature range** : - 7 to 50 C

Intake standard thread connection 1-1, 2 inch hold joint hoop ;

Grams of fresh customers to choose custom connector port.

The pressure infiltration test experiment of membrane housing is using the experimental pressure of 1.5 times the standard pressure.

Specifications	End Entry	Side Entry
Shell Material	FRP	
Feed / Reject Port		
Size	1.5"	1.5" / 2.0" / 2.5"
Connection	Groove End	
Material	SS316 ( Duplex SS for + 1000 PSI )	
Permeate Port		
Size	1"	
Connection	Female NPT / BSP	
Material	ABS Standard	
Head Assembly	Included	
Adaptor	Included	
Straps and Saddles	Included	
Packaging	PVC plastic wrapping with carton outer
